

18 July 1966

Mr. Hans Heymann  
RAND Corporation  
Santa Monica, California

Dear Hans:

Enclosed are three unclassified memoranda relating to North Vietnam's economy. One deals with "Hanoi's Labor Problems", the other is entitled "Hanoi Reveals Potential New Food Problem", and the third "Hanoi's Economic Optimism". All three were produced by the Research Section of U.S.I.A. You and your colleagues may have already received them or may get such material in the normal course of events. If not, I thought these documents would be of interest to Eric Hoeffding. Would you please pass them to him with my best regards.

I have been most remiss in not expressing in writing my great appreciation for your hospitality and that of your colleagues during my visit to RAND at the time of the ORSA Conference. Please make appropriate thanks and apologies on my behalf.

Please give me a call in the near future so that we can arrange a lunch to review matters of mutual interest.

Sincerely yours,

George A. Carver, Jr.
